Dr. Pet's Fish Meal

\$6.95

Natural, highly digestible protein from cold water marine fish and fish oil.

Dr. Pet's Fish Meal is all-natural and made from marine fish rich in Omega-3 fatty acids, fish oil in its pure, natural form, and fortified with vitamins and minerals. A natural, healthy and easy way to add the nutritional benefits of seafood to your pet's daily diet. Dr. Pet's Fish Meal is particularly suitable for restricted diets; containing more than twice the Omega-3 fatty acids of other premium fish meal and 15% pure fish oil.

Feeding Instructions: Sprinkle daily over your pet's food. Active pets up to 10 lbs: 1 teaspoon daily; 2-4 teaspoons for pets over 10 lbs.

Ingredients: Made from whole marine fish with no additives. Vitamins A, D, E, K and minerals iron, zinc, calcium and potassium.
